

# Richard Renner in the Recycle Show

## TECHNICAL RIDER

785-749-2226 • [info@recyclecyclecar.com](mailto:info@recyclecyclecar.com) • [www.recyclecyclecar.com](http://www.recyclecyclecar.com)

**Richard Renner can adapt the show to fit most performance spaces as long as the details are discussed and agreed on before hand.**

### Performance Space

- Minimum Size: 12' deep by 15' wide by 10' high
- Solid and level stage or ground (wood/concrete/brick/etc.)

### Audience Access *The show includes audience interaction*

- Audience seating should face the stage before performance time
- Seat audience 5-10 feet from front of stage
- Keep clear aisle access to stage
- Elevated stages need stairs which are easy for the audience (preferably front of stage)

### Lighting *lighting plot available on request*

- Light the stage with all you've got
- Minimal / zero house lighting during show
- Outdoor shows: please provide shade for performances where applicable

### Sound *Richard can supply sound system if necessary*

- Sound technician to adjust levels and monitor sound throughout the show
  - Sound system needs
    - XLR input for Richard's wireless microphone (supplied by him)
    - DI (Direct Input) box or ipod input for recorded tracks
    - Separate microphone for emcee (if applicable)
